

PROUD OF OUR PAST

THE PAST

During the winter months in 1964, to make up for the fact he wasn't working during that period, (hotel occupancy being a very seasonal affair in the area) a hotelier from Bellaria decided to occupy his time by producing equipment.

It was thus that the first Metalcarrelli trolleys were produced, as a result of years of experience gained in the hotel management business.

THE PRESENT

Today Metalcarrelli is run by Ivana Petrucci, the daughter of that far-sighted hotelier, along with Franco Picchi, who has been the company's CEO since 1970. Over 40 years of specific experience in this field make the company a veritable benchmark for the industry.

It is a dynamic business enterprise with what is considered to be one of the most comprehensive ranges of products in the sector, comprising over 2,000 articles.

THE FUTURE

Even faced with a scenario of great uncertainty and economic crisis, those who have succeeded in managing their resources well over the years can look towards the future with greater peace of mind.

And that's precisely how Metalcarrelli is preparing to deal with fresh challenges with renewed commitment, determination and reliability - characteristics that have always been our hallmark.

OVER 40 YEARS' EXPERIENCE IN THE HO.RE.CA SECTOR

We design and manufacture trolleys and other decorative service items and accessories for professional use in the most varied sectors, including hotels, restaurants, hospitals, care homes, institutions etc...

Our history is firmly rooted in the world of artisan craftsmanship.

We have developed our know-how as a result of forty years' experience in the sector and have invested in order to optimize production, becoming market leaders and benchmark partners for many professional operators.

Our catalogue comprises a remarkably vast range of items, all of which offer great value for money.

We firmly believe in the importance of "Made in Italy" and work daily with numerous clients both in Italy and overseas.

We constantly work towards improving production standards through the use of new technologies and materials and particularly focus on energy saving methods and on compliance with all health and safety regulations.

Our products are virtually indispensable for business enterprises in a variety of sectors; in the kitchens of large institutions, care homes and hospitals, in school refectories and staff canteens and all other areas of the catering and hospitality sector.

ATTENTIVE TO OUR CLIENTS' REQUIREMENTS

Our company has always been committed to achieving complete client satisfaction; indeed it is our primary objective.

We work with utmost dedication and commitment in selecting the products we offer, to ensure they address the strictest needs and most demanding requirements of the ho.re.ca sector, in drafting estimates, in our pre- and after-

sales technical assistance and in the care we take in fulfilling orders. Wherever possible, we will also happily evaluate and consider requests for special items that do not feature in our catalogue.

The trust and respect we have gained from our clients over the years has always fully rewarded our efforts and spurs us on to renew our constant commitment to achieve the highest possible level of

client satisfaction, as we trust we have accomplished in drafting this catalogue.

The Metalcarrelli brand has always been synonymous with quality and trustworthiness and is therefore the most reliable response to your requirements.

www.metalcarrelli.com

We have created a dynamic website, especially designed to meet our clients' requirements. Indeed it not only offers visitors the possibility to see detailed images of our products, it also contains their exact specification.

As well as the entire catalogue it is also possible to view technical manuals and price lists.

All the information you need, available with little more than a simple click!

From the home page you can access:

1. contents in English
2. internal website search engine
3. main menu
(company - news - promotional offers - events - where to find us)
4. reserved area (newsletter - dealer area - catalogue download area)
5. Metalcarrelli presentation
6. news interactive animated banner
7. promotional events interactive animated banner
8. events interactive animated banner
9. category menu

Reserved area
for operators, with access to the price list and the possibility to purchase directly from the website.

Possibility to download
the catalogue in PDF format.

Registration for the newsletter
so you can keep up to date on company news.

Immediate accessibility to images and technical specification for everyone, with the possibility to download documents in PDF format for use in personalized quotations.

As well as the opportunity to navigate the product area to obtain more technical information and visualize enlarged images, it is also possible to explore the area dedicated to news, featuring new products that do not appear on the catalogue. The products in this area also have fully-accessible technical information and photos.

1
